Preparation of Items

In order to make your trip to the Household Hazardous Waste Collection Day as quick and easy as possible here are some things you should do to prepare your items:

1. Keep items in their original container.
2. Organize similar items together in a box(es). This will allow workers to review your items more quickly to ensure proper disposal. Please keep **PaintCare** products separate from other waste (see Note below).
3. Place items in boxes, pad with newspaper. This will help prevent possible spillage in your car/truck and will enable workers to remove materials quicker.
4. Pack your car and drive directly to the site.

NOTE: Under Connecticut's new PaintCare program (see www.paintcare.org), residents are encouraged to place the following products together in one or more boxes: interior and exterior architectural paints (latex, acrylic, water-based, alkyd, oil-based, enamel), deck coatings, floor paints, primers, sealers, under-coaters, stains, shellacs, lacquers, varnishes, urethanes (single component), waterproofing concrete/masonry/wood sealers and repellents (not tar or bitumen-based), metal coatings, rust preventatives, field and lawn paints

Household Hazardous Waste Collection Day

Falls Village
Public Works Garage
(see location map)

Saturday, June 7, 2014
9:00 a.m. to Noon

Pre-registration Required
Call:
