Janell - Here is my comment on the plan.

"It is my understanding that the current thinking on best practice with affordable housing is that it should be integrated into a community. River Road in Lime Rock Station already has 4 units of Affordable Housing. It makes sense that the next project be in a different neighborhood and also of a scale that could be built faster and get people in homes faster than the idea of 16 more units on River Road.

Respectfully submitted, Laura Werntz, Resident, Town of Canaan, Falls Village
